

## TSM PROJECT LOGISTICS INDIA

TSM Project Logistics INDIA is an extended arm of TSM Germany GMBH. Our office is headquartered in Germany which is located right in the heart of Europe's third largest seaport, Hamburg. TSM has been serving as successful international freight forwarding company for past 15 years and has launched the extended business unit in India as TSM Project Logistics Pvt. Ltd.

### WHO WE ARE?

TSM Project Logistics Pvt. Ltd. is an extended arm of TSM Germany GMBH. Our office is headquartered in Germany which is located right in the heart of Europe's third-largest seaport, Hamburg. TSM Germany has been serving as a successful international freight forwarding company for the past 15 years and has now put its best foot forward by launching a new extended business unit in India as TSM Project Logistics Pvt. Ltd.

### WHAT WE OFFER?

When we join a project, we establish a close working relationship with our clients, based on professionalism and mutual respect. Our strength lies in the ability to execute the timely delivery of the cargo by adding value to our client's supply chain through the integration of land and sea transportation from the country of origin to the point of sale. We build our solutions around our core services thereby facilitating a seamless execution.

### THE TSM ADVANTAGE

TSM INDIA is backed with some of the most experienced project cargo specialists worldwide. All the network offices are equipped with the best professionals in their line of business in their respective countries. TSM India team has been associated with some of the prestigious projects during the previous assignments.

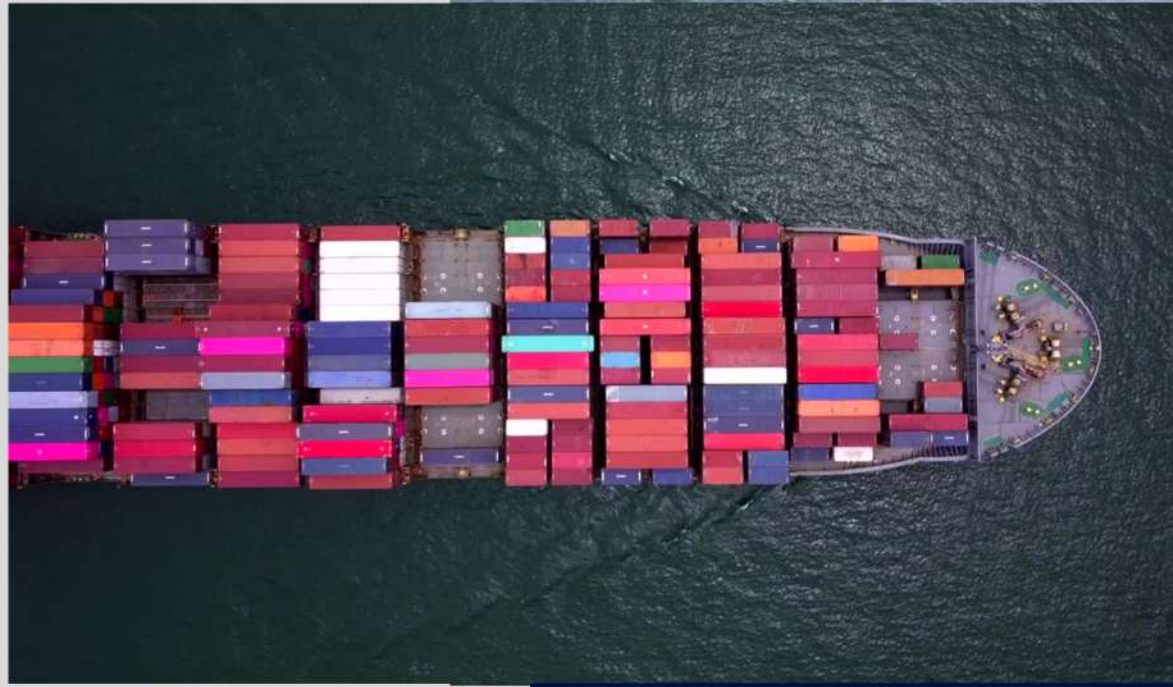

### INDUSTRIES

We at TSM focus on our customer's business model, product line, requirements, and timelines in order to tailor-make the best available logistics solution with cost optimization as per their industrial background. Our dedicated team of experts partner with you, to invent and efficiently implement smart logistics solutions to the specific needs of your business.

# Global Logistics, Local Expertise!

## Projects Highlights

1. GGSRL Bhatinda refinery project
2. Delhi International Airport terminal 3 Project
3. Mumbai International Airport development project
4. 210 MT, 78 MT & other Transformer + Container cargo movements from / to India for GE T&D
5. Cement grinding unit of a cement plant in Eastern India, comprising of 140 MT, 56 MT & 32 MT packages.
6. 140+ Aerobridges for over 40 airport locations in India, including – Srinagar, Dibrugarh, Guwahati, Bagdogra and others in NE states.
7. Blast Furnace Plant for expansion project of Nilachal Ispat Nigam Ltd. In the state of Odisha with packages of 6.6 Meter in Dia and 65+ tons in weight.
8. 32, 35 & 39 Meter long packages from Haryana to Mumbai for further export to USA with transport engineering done to mechanical trailer. Although, cargo length required hydraulic axle movement.
